Pam Mohn, P.E.
Chief of Design

By Authority of:
Board of County Commissioners
Washington County, Maryland

Scott Hobbs, P.E.
Director of Engineering

ADDENDUM NO. 2
BACK ROAD REPAIR
County Contract No. RD-BR-272-10

TO: All prime potential bidders.

ITEM 1.01 **Additional Submitted Inquiries and Responses:**

1. Would you be able to clarify what you mean by “natural stream channel restoration” and what that means in terms a of a specification we are to use?
Response 1: The project shall conform with the NRCS Natural Stream Restoration Design standards. Refer to page 8 of the Special Provisions, Section 6, Letter J.
2. Currently, my search of Washington County’s BMP types does not show a stream BMP type. Are there specific specs the County would want us to use?
Response 2: Please see Response 1.
3. Will the County be looking for annual mass nutrient and sediment reduction credit for the natural stream channel restoration?
Response 3: Yes.
4. The County ordinance for SWM states ESD to MEP is required unless there is an exemption. Will there be an exemption for this project or are we to design the SWM using ESD to MEP?
Response 4: Refer to Addendum No. 1, Response 11.

END ADDENDUM NO. 2
