Washington County

Washington County is a mid-size, multi-service local government serving the needs of approximately 143,000 residents.

The county provides 67,167 jobs with an unemployment rate of 3.9% as of November 2007. This is compared to the State employment rate of 3.5%.

Washington County has nine municipalities within its boundaries, with Hagerstown as the largest. The majority of the residents live outside of any corporate limits.

Washington County has five elected commissioners that govern the County. In addition to the taxpayers, the commissioners directly oversee the County Administrator, County Clerk, and the Director and Budget and Finance.

Statement of Purpose

This report is designed to communicate the County's major financial operating transactions for the indicated period since the issuance of the prior audited financial statements.

This report is interim in nature and abbreviated in that it does not include details for all the various funds maintained by the County. Additionally, this report omits many of the required note disclosures typically found in a fiscal year-end financial statement report. The information contained here is intended to allow management to make limited assessments of near-term trends that may have impact on operations and financial results. Management views this interim period as an integral part of the annual period.

The report includes information regarding some of the more notable recent developments that may impact County finances, along with summarized information relating to the general, landfill, highway, and construction activities of the County including the local economic trends. This report is general in nature. The reader is cautioned that it does not provide the level of detail, nor the comprehensive scope found in a fiscal year-end financial statement. Those desiring or needing such information should contact The Office of Budget and Finance.

We hope that you find this report informative and meaningful. If you have any questions regarding this report, please contact The Office of Budget and Finance at 240-313-2300.

Please Note:

This report is provided for general information use only. The information contained in the document speaks only as of its reported date.

Current Developments

Revenue Trends:

With the exception of Income and Real Estate tax, other major revenue sources are continuing to show budgetary shortfalls as shown in the economic and revenue trend sections of this report. Real Estate tax revenue is currently 1% over projected budget, before the half-year assessment in January. Income tax at mid-year is 7% over budget. However, with the special session income tax restructure that the State approved, an estimated \$850,000 reduction in local income tax revenues for fiscal year 2008 is anticipated. We will continue to monitor current revenue trends, as continued reductions will cause adjustments in fiscal year 2009 and out.

Projects:

The Office of Budget and Finance has contacted each county in the State of Maryland regarding their use, if any, of educational funding formulas. Most counties have replied. We are in the process of evaluating each response. Once the evaluation is complete results will be sent out for review to the commissioners.

Bond Issue:

We are tentatively planning the public bond sale for April or May and are currently in the process of preparing the official statement for the rating agencies and the bid market.
