

# Right of Way Notice

Materials and Equipment Placed in County Rights of Way

## MATERIALS AND EQUIPMENT PLACED IN COUNTY RIGHTS-OF-WAY

To all builders, contractors, developers, material suppliers and all other concerned parties:

Please be advised that effective immediately, placing or storing of construction related material, supplies (material) or unlicensed equipment within County owned and maintained rights-of-way will be subject to immediate removal by the County without further notification to a location of its choosing. The owner will be subject to all costs associated with the removal and said costs will be due prior to the material(s) and/or equipment being released back to the owner. All unclaimed material(s) and/or equipment will be disposed of in accordance with normal County policies.

Failure to cooperate may also result in withholding of inspections, building permits and/or certificates of occupancy.

This action is being taken in the interest of public safety and to protect public infrastructure. In the case of equipment licensed with the Motor Vehicle Administration of Maryland, we ask your cooperation by not parking equipment in locations that may obstruct motorists' line of sight.

Washington County thanks you in advance for your cooperation and teamwork with this effort to make our streets and highways safer to travel.

By Direction of:

Robert J. Slocum, P.E.  
Division Director of Engineering and Construction Management

Please refer all questions to the Washington County Division of Engineering and Construction Management (240) 313-2460
