Functionally Similar to Permitted Use Filing Procedures

Functionally Similar to Permitted Use— If requesting for the board to determine the use is functionally similar to a permitted or special exception use in the zoning district, be prepared to discuss the following criteria excerpted from Section 25.6 of the Washington County Zoning Ordinance:

Where in these regulations certain powers are conferred upon the Board or the approval of the Board is required before a permit may be issued, or the Board is called upon to decide certain issues, the Board shall study the specific property involved, as well as the neighborhood, and consider all testimony and data submitted, and shall hear any person desiring to speak for or against the issuance of the permit. However, the application for a permit shall not be approved where the Board finds the proposed building, addition, extension of building or use, sign, use or change of use would adversely affect the public health, safety, security, morals or general welfare, or would result in dangerous traffic conditions, or would jeopardize the lives or property of people living in the neighborhood. In deciding such matters, the Board shall consider any other information germane to the case and shall give consideration to the following, as applicable:

- (a) The number of people residing or working in the immediate area concerned.
- (b) The orderly growth of a community.
- (c) Traffic conditions and facilities.
- (d) The effect of such use upon the peaceful enjoyment of people in their homes.
- (e) The conservation of property values.
- (f) The effect of odors, dust, gas, smoke, fumes, vibrations, glare and noise upon the use of surrounding property values.
- (g) The most appropriate use of land and structure.
- (h) Decision of the courts.
- (i) The purpose of these regulations as set forth herein.
- (j) Type and kind of structures in the vicinity where public gatherings may be held, such as schools, churches and the like.

The standard for the grant or denial of a functionally similar request is whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a use irrespective of its location within the zoning district.

Incomplete applications will not be accepted.

- Anyone attending the hearing is permitted to speak in support or opposition to the appeal. The appellant will be given a chance to address the oppositions concerns.
- The Board will then go into deliberations and there will be no further comment taken at that time. The board members will make their informal decision during the hearing. The formal and official written opinion will be issued within 30 days and a copy of the decision will be served to the parties via US postal service.

Opinion:

- If the appeal is granted, the appellant may apply for or continue with the permit process at their own risk after the hearing. The formal opinion can be challenged up to 30 days after the formal opinion has been issued to the Circuit Court. Any fees paid during this time will not be refunded if the Circuit Court overturns the Board of Appeals opinion.
- If the appeal is denied, the appellant may challenge the formal opinion in Circuit Court within 30 days of the formal opinion filing. The appellant can also file for a new appeal either 12 months after the original appeal or a new request can be submitted but must be deemed substantially different from the original proposal.
- Any person or persons, jointly or severally, aggrieved by any decision of the Board of Appeals, or any taxpayer, or any officer, department, or board, bureau of the jurisdiction, may appeal the same to the Circuit Court of Washington County in a manner set forth in Section 4.08 of Article 66B of the Annotated Code of Maryland. The Court may affirm, reverse, vacate or modify the decision complained of in the appeal.
- Appeals granted by the Board of Appeals do not have a time requirement of when the project must start. If the project is delayed and there is a change to the property, zoning, or project; a new approval may be required.
