PREFACE

Providing services for the safety, health and general welfare of its people and planning for the orderly growth and development of its land are primary functions of any government. In order to implement, finance and enforce these functions fairly and equally for all citizens, reasonable, acceptable standards must be established and followed.

The governing body of Washington County, the Board of County Commissioners, has adopted certain codes, ordinances and regulations. These regulations require all persons wishing to build or use land in the County to follow prescribed procedures for obtaining and paying for permits.

It is the purpose of this booklet to describe these procedures and inform the permit applicant so that time and undue expense can be saved in obtaining permit approvals.

SUBDIVISION INFORMATION

A subdivision is defined as the division of a lot, tract, or parcel of land into two or more lots, plats, sites or other divisions of land for the purpose, whether immediate or future, of sale or of building development.

If a lot is being subdivided from a larger parcel for the purpose of sale or development, the following process shall be followed before submitting for a building permit:

- Contact the Washington County Division of Plan Review & Permitting (The “Division”) regarding requirements of the adopted Subdivision Ordinance for the submittal of a subdivision plat. The subdivision plat must be approved by the Washington County Planning Commission and recorded in the Washington County Land Records (Clerk of Circuit Court) prior to making application for a building permit. The absence of such approval will delay the approval of all permits and/or could cause undue financial hardships.
- If a dwelling is proposed on a parcel that is not served by a public sewerage and water system, contact the Washington County Health Department (Environmental Health) for assistance in conducting a soil percolation test and determining a proper well location. Application for a percolation test shall be made at the Health Department. The percolation test determines if the lot’s soil is suitable to absorb the liquid which will flow from the septic tank. The well will be located so that the water will not be contaminated by the septic on the parcel being developed as well as by the septic areas from surrounding parcels.
- If public sewer and/or water are available from either Washington County Department of Environmental Management – Water Quality, the City of Hagerstown Water Department and/or Water Pollution Control, the appropriate agency should be contacted for connection information.

Building permits may be filed if construction is proposed in an approved subdivision (plat has been recorded in Land Records) or a “lot of record”.

PERMIT REQUIREMENT

A permit is required to construct, enlarge, alter, repair, move, demolish or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, the installation of which is regulated by the current adopted International Residential Code (IRC). See Appendix 1 – Building Permit Application and Appendix 2 - Current Building Codes. Please visit the departmental website at www.washco-md.net/permits/permits.shtm for the current adopted building codes.

Application for a permit may be made by the owner or lessee of the property, or agent of either or by the licensed engineer or architect employed in connection with the proposed work. If the application is made by a person other than the owner in fee, it shall be
accompanied by a duly verified affidavit of the owner. See Appendix 3 - Owner’s Affidavit

If the proposed construction is on property located in Washington County and outside of the corporate town limits of Boonsboro, Clear Spring, Hagerstown, Hancock, Keedysville, Sharpsburg, or Williamsport, application is made, in person, at:

Washington County Division of Plan Review & Permitting
County Administration Annex
80 West Baltimore Street
Hagerstown, Maryland 21740

If the property is located within the corporate boundaries of one of the above listed incorporated towns, application may be made at the designated Town Hall office. See Appendix 4 - Incorporated Towns’ Contact Information. Note: Residents within the town limits of Boonsboro, Funkstown and Williamsport apply for building permits at the offices of the Division after receiving zoning approval from their town’s zoning administrator. The Town will review and approve the application for compliance with their local zoning then forward the town permit application and building plans to the Division for review and approval of the building codes. Once approved by the Division the application is returned to the Town for issuance.

APPLICATION REQUIREMENTS

PLOT PLAN Each application shall include a plot plan (except for interior renovations) of the entire parcel, drawn to scale, showing the following: See Appendix 5 - Sample Plot Plan

- Location of the proposed structure with accurate measurements from the proposed structure to each property line
- Location of any existing structures
- Location of the existing/proposed entrance
- Location of existing/proposed well and septic area
- Limits of ground disturbance and soil stockpile area

If property is part of an approved subdivision, the above information should be drawn on a copy of the platted lot at the scale indicated on the plat.

BUILDING PLANS In addition to the plot plan, two (2) complete sets of detailed construction plans, See Appendix 6 – Sample Dwelling Construction Drawings, drawn to scale, shall also be submitted to include:

- Footing and foundation plan
- Floor plan for each level with all rooms labeled with the proposed use
- Cross section drawn at 1/4 scale
- Wall section drawn at 3/4 scale
• Front, rear and both side elevations
• Square footage totals of both finished and unfinished areas
• Complete Mechanical Manual "J" and Manual "D"
• Manufacturer installation instructions if dwelling is manufactured (mobile home)
• Modular Dwelling: Seal indicating plans are Maryland State approved. Applications for a modular dwelling shall also include installation details for the residential fire sprinkler system as required by the State of Maryland.
• Proof of paid water/sewer tap fees from Dept. of Water Quality and/or City of Hagerstown
• Homeowner’s Affirmation – if owner is acting as general contractor. Must own the property, will reside in the dwelling and be the general contractor during construction. See Appendix 7 - Affirmation of Landowner
• Maryland Home Builder's License if dwelling is to be constructed/installed by a contractor
• Townhouse construction drawings are required to be sealed and signed by a Maryland registered design professional
• Maryland Home Improvement License is required of contractor for construction of anything other than a new dwelling i.e. addition, swimming pool, deck, shed, etc.
• Plumbing permit from a master plumber (For mobile homes and modular dwellings)

See Appendix 8 Residential Checklist for permit information required for permit applications such as additions, garages and sheds, decks, swimming pools and finishing of basement or remodeling, as well as wall sections that can be completed to assist in building plans submittals.

A building permit application may not be accepted without the scaled plot plan and/or incomplete construction drawings.

FEES

Fees are based on the current adopted fee schedule (See Appendix 10). Fees are based on an application fee and technology fee plus a square footage amount on new construction and additions. (The technology fee is assigned to each permit to help defer the cost of the computer software system that enables the inspectors to perform more efficiently and allow the trade contractor to apply for trade permits on-line and obtain other permitting information.) Additional fees may apply pursuant to the Washington County Excise Tax Ordinance. The Excise Tax Ordinance is available online at www.washco-md.net and selecting the “County Ordinances” tab. Outside reviewing agencies may also charge a fee. (See Appendix 9 – Reviewing Agencies and Contact Information) Fees may be charged for revisions or modifications to a pending or approved permit, a permit extension request and/or a premature inspection request.
A minimum fee is required at the time of application and all fees shall be paid prior to the issuance of the building permit. Fees for trade permits are indicated on their current permit applications and are required at the time of making application.

Please visit the departmental website at www.washco-md.net/permits/permits.shtm for the current adopted fee schedule.

REVIEWING AGENCIES

The Division determines which agencies an application must be routed to for review and approval. Applications are sent only to those agencies having jurisdiction. Seldom, will an application require review and approval from all agencies. (See Appendix 9 - Reviewing Agencies and Contact Information)

REVIEW/PROCESSING TIME

Time required for processing of a permit varies depending upon the complexity of the project, the number of agency approvals required and the number of building permits currently in the review process. It is the goal of the Division to review the building plans and issue comments within six weeks of the application date; however, all permits are reviewed as quickly as conditions allow. To expedite the permit review process applications should include all required information at the initial building permit application.

AN APPROVED PERMIT

Once all agency approvals are obtained and fees have been paid the approved permit will be mailed to the applicant. Construction shall not be started before the building permit is obtained and posted. The approved permit packet will consist of:

- A printed copy with the building permit number, the owner’s name, contractor information (if any), address of property, proposed and required setbacks for the structure, a detailed list of general and special conditions and a list of the required inspections. It is very important that all the conditions are reviewed upon receiving the approved permit. Some conditions require information to be submitted prior to an inspection and failure to provide this information may cause undue delays and expense. In addition to the building permit, printouts of the approved entrance and grading permits will also be included (if applicable).
- A building permit placard bearing the assigned permit number. The placard must be displayed in a prominent location visible from the road at the construction site. Failure to display the permit placard may result in inspections not being performed creating undue delays and expense.
- The approved building plans signed and dated by the plans reviewer. To reduce delays in construction, it is imperative that these plans be reviewed closely as the plan reviewer has added comments regarding minimum building code requirements.
An instruction sheet with inspection information and a copy of the IVR (Interactive Voice Response System) User’s Guide used to schedule required inspections listed on the permit print out. (See Appendix 11 – IVR Brochure)

INSPECTIONS

It is the responsibility of the owner and/or contractor to request the required inspections. Inspections are performed by the Department of Engineering & Construction within twenty-four (24) hours of the request. Inspections are requested through the Interactive Voice Response System (IVR) by dialing 240-313-2488 or on-line through Citizen Access at www.VelocityHall.com/washingtoncounty. Through the IVR and Citizen Access one can schedule and/or cancel inspections, obtain inspection results check a permit status and obtain additional departmental information. Inspections are scheduled using the assigned permit number. Failure to request all required inspections is a violation of the building code and will cause delays and undue expense especially if work is required to be removed.

USE & OCCUPANCY

No structure may be used or occupied prior to the issuance of the Use and Occupancy Certificate. All construction must be complete and have obtained final electrical, mechanical, plumbing and building inspections. If the property is on a parcel not serviced by public water and sewer, water samples shall be approved by the Washington County Health Department. Adequate time should be allowed in obtaining the water sample approval.

PENALTIES

Any person who shall violate a provision of the building code or fail to comply with any of the requirements may be issued a civil citation providing for a fine of $100.00. In addition to the civil citation, matters can be referred to the State’s Attorney Office for compliance at which time a minimum fine of $250.00 per day, not to exceed $1,000.00 per day, imprisonment and/or the fine and imprisonment.

M.B.S.L. = MINIMUM BUILDING SETBACK LINE

14
AFFIRMATION OF LANDOWNER

NAME OF LANDOWNER: _________________________  PERMIT # _________________

ADDRESS OF PROPERTY COVERED BY PERMIT: ______________________________________

The Maryland Home Builder Registration Act, effective January 1, 2001, prohibits the issuance of building permits unless the home builder is registered with the State and the builder’s registration number is included on the building permit. The purpose of this Act is to protect customers when they are purchasing new homes. A builder can lose its registration if it violates the Act.

The Act permits a landowner to obtain a building permit for construction to be performed directly by the landowner solely for the landowner’s own use. In order to obtain a permit that does not contain the registration number of a builder, the landowner has to affirm as follows:

1. I understand that the Maryland Home Builder Registration Act was passed to provide landowners like me with certain protections and that I could lose the benefits of those protections if I ever entered into a contract with an unregistered builder.

2. I understand that builders of new homes in the State of Maryland must be registered with the Home Builder Registration Unit of the Consumer Protection Division of the Office of the Attorney General.

3. I have title to property located in the State of Maryland and am seeking a building permit for that land.

4. I am requesting this building permit for construction to be performed directly by me on my own land, solely for my own use.

5. I have not entered into a contract with any person or company to erect or otherwise construct the new home covered by this permit, including a contract for somebody to manage, oversee, or supervise in any way the construction of the home. I will not enter into such a contract without first notifying (the building permit office) of the name of the person or company so that its builder registration status can be determined and, if registered, the builder’s name and registration number can be added to the building permit. I understand that a builder cannot perform any work on the new home until this information has been added to the permit.

6. I understand that I may be deemed to have violated the Home Builder Registration Act if I enter into any contract for the sale of the new home covered by this permit under circumstances indicating that it was never my intention to use the completed home as my own.
7. To the extent known, the name of the primary subcontractors who will be working on my home and the areas in which they will be providing improvement, i.e. plumbing, electrical, roofing, etc. are as follows:

<table>

APPENDIX 8 – RESIDENTIAL CHECKLIST

RESIDENTIAL PERMIT APPLICATION CHECKLIST

Building permits are required for the construction, alteration, repair, addition and removal of structures, including sheds and decks. Application is made at the Division of Plan Review and Permitting, 80 West Baltimore Street, Hagerstown, Maryland 21740 between the hours of 8:00 a.m. – 4:00 p.m., Monday through Friday.

To expedite the permit review process, please verify the following items are submitted at time of filing for a building permit. The permit application may be rejected if any items are omitted.

SINGLE & TWO-FAMILY DWELLING AND/OR ADDITION

_____ Plot Plan of the entire parcel – drawn to scale – to include:
   _____ Location of the proposed structure
   _____ Measurements from the proposed structure to each property line
   _____ Location of any existing structures
   _____ Location of existing/proposed driveway(s)
   _____ Location of existing/proposed well and/or septic area
   _____ Limits of ground disturbance and soil stockpile area

_____ Two (2) complete sets of detailed construction plans – drawn to scale – to include:
   _____ Footing and foundation plan
   _____ Floor plan for each level with all rooms labeled with the proposed use
   _____ Cross section (1/4 Scale)
   _____ Wall section (3/4 Scale)
   _____ Elevation (Front, Rear and Sides)
   _____ Square footage totals (finished and unfinished area(s)
   _____ Mechanical Manual “J” and Manual “D”. (If the Manual “J” or Manual “D” is changed during the construction process, an additional review will be needed and a $50 revision fee may be charged.)
   _____ Manufacturer Installation Instructions (For manufactured (mobile home) only)
   _____ Seal indicating plans are Maryland State approved (Modular dwellings only)
   _____ Modular dwelling applications shall also include installation details for the residential fire sprinkler system as required by the State of Maryland.

_____ Proof of paid water/sewer tap fees – Paid receipt from Dept. of Water Quality or signed receipt from City of Hagerstown – (Required for new dwellings in joint/city service areas)

_____ Homeowner’s Affirmation (Must own property, be general contractor and will reside in dwelling)

_____ Home Builder’s License Number (For construction/placement of new dwelling by a licensed contractor)

_____ Plumbing Permit (Signed by a Master plumber – For mobile homes and modular dwellings)

_____ Townhouse drawings shall be designed by a Maryland registered architect and are required to be sealed and signed.
DETACHED GARAGE / SHED

Plot Plan of the entire parcel – drawn to scale – to include:

- Location of the proposed structure
- Measurements from the proposed structure to each property line
- Location of any existing structures
- Location of existing/proposed driveway(s)
- Location of existing/proposed well and/or septic area
- Limits of ground disturbance and soil stockpile area

Two (2) complete sets of detailed construction plans – drawn to scale – to include:

- Footing and foundation plan (If structure is over 400-sq. ft.)
- Floor plans for each level with all rooms labeled with the proposed use
- Cross section (1/4 scale)
- Elevations (At least two)
- Square footage total

DECK

Plot Plan of the entire parcel – drawn to scale – to include:

- Location of the proposed structure
- Measurements from the proposed structure to each property line
- Location of any existing structures
- Location of existing/proposed driveway(s)
- Location of existing/proposed well and/or septic area
- Limits of ground disturbance and soil stockpile area

Two (2) complete sets of detailed construction plans – drawn to scale – to include:

- Footing detail indicating size and depth
- Elevation (Not required if height above finish grade is provided)
- Beam size and support posts sizes and locations
- Floor joist size and spacing
- Ledger board connection details
- Decking materials indicated
- Detail of stair construction and location
- Detail of railing system, including materials
- Square footage total
APPENDIX 8

FINISHED BASEMENT
_____ Two (2) complete sets of detailed construction plans – drawn to scale – to include:
______ Floor plan with all rooms labeled with the proposed use
______ Square footage totals (Finished and unfinished area(s)
______ Window and door sizes indicated
______ Means of egress location
______ Finished ceiling height indicated
______ Materials for bottom wall plate indicated
______ Type of wall framing and spacing (2x4 or metal)
______ Exterior wall insulation (R-10 minimum from ceiling to floor)
______ Wall and ceiling finish materials
______ Smoke detectors (In each bedroom and in immediate vicinity of bedrooms)

SWIMMING POOL – ABOVE OR IN-GROUND
_____ Plot Plan of the entire parcel – drawn to scale – to include:
______ Location of the proposed structure
______ Measurements from the proposed structure to each property line
______ Location of any existing structures
______ Location of existing/proposed entrance(s)
______ Location of existing/proposed well and/or septic
______ Limits of disturbance and stockpile area
______ Dimensions/diameter of pool
______ Depth of pool
______ Deck (If provided as part of the above ground pool – manufacturer’s details)
______ Deck (If framed separately, see deck requirements above)

MISCELLANEOUS REQUIREMENTS
_____ Electrical Permit Application (Signed by a Master Electrician licensed in Washington County)
   (Electrical permits for swimming pools, sunroom additions, attached garages and similar structures shall be
   submitted prior to issuance of building permit)
_____ Contractor’s Maryland Home Improvement License (Not required for new dwelling)
_____ Owner’s Authorization/Affidavit (If someone other than the owner is making application)

**INTERACTIVE VOICE RESPONSE (IVR) SYSTEM USER'S GUIDE**

240-313-2488

Call the automated IVR System for all of your Inspection transactions seven (7) days a week.

80 West Baltimore Street
Hagerstown, Maryland 21740-6003

http://www.washco-md.net

Revised 06/13/11
Dept. of Engineering & Construction’s Interactive Voice Response (IVR) System

In an ongoing commitment to improve customer service, the Dept. of Engineering & Construction has installed an Interactive Voice Response System for inspections, 7 days a week, from 6:00 a.m. until 11:00 p.m.

IVR System Permit Line
240-313-2488

Schedule Inspections
Cancel Inspections
Retrieve Inspections Results
Check Permit Status
Obtain Dept. Information

Before Calling You Will Need:
1. A touch tone phone
2. A Permit Number
3. An Inspection Code—Choose from the inspection codes listed outside this brochure

Choose From The Following Options:
Press [1] Schedule an inspection
Press [2] Cancel an inspection
Press [3] Obtain inspection results
Press [4] Check permit status
Press [5] Receive dept. information by fax
Press [6] Transfer to departmental staff
Press [#] Hang up

The IVR system prompts users through the entire process. You may perform multiple transactions during each call. At the end of the call you will be issued a confirmation number. We recommend that you keep a record of your confirmation numbers and associated transactions in case they are needed for future reference.

Schedule An Inspection

1. Enter your permit number followed by the # sign.
   The system will confirm this permit by speaking back the site address.
2. Enter the Inspection Code from the list on the inside of this brochure.
3. Enter the Inspection Date. The cut-off time is 12:00 a.m. for an inspection the following day.

After you have scheduled the inspection, you will be able to:
- Leave a message for the inspector.
- Get a Confirmation Number and hang up. Use this Confirmation Number when inquiring about this telephone request.
- Request another inspection, same permit.
- Request another inspection, different permit.
- Return to Main Menu

Cancel An Inspection

1. Enter the Permit Number followed by the # sign.
2. Enter the Inspection Code from the list on the outside of this brochure.

After you have cancelled the inspection, you will be able to:
- Leave a message for the inspector
- Get a Confirmation Number and hang up
- Cancel inspection on same permit.
- Cancel inspection on different permit
- Return to Main Menu

Obtain Inspection Results

1. Enter the Permit Number.
   The system will confirm this permit by speaking back the site address.
2. Enter the Inspection Code from the list on the outside of this brochure.

After you have listened to the inspection results, you will be able to:
- Retrieve Inspector Message
- Hang confirmation # and hang up
- Listen to more results, same permit.
- Listen to more results, different permit.
- Return to Main Menu

Check Permit Status

1. Enter Permit Number.
2. Press [1] to have the permit status and list of outstanding agencies faxed to you, or Press [2] to have the permit status and list of outstanding agencies spoken to you. You will be asked to enter your fax number if the information is being faxed to you.

Transfer To Staff

You can press [0] at any menu to transfer to a live departmental staff member.

Departmental Information By Fax

The following information can be received from our Dynamic Information System by fax:

Press [1] Directions to our offices
Press [3] Information regarding the permit process and list of our current fee schedule
Press [#] Back up
