---

Pursuant to the Maryland Open Meetings Law, notice is hereby given that the deliberations of the Board of Zoning Appeals are open to the public. Furthermore, the Board, at its discretion, may render a decision as to some or all of the cases at the hearing described above or at a subsequent hearing, the date and time of which will be announced prior to the conclusion of the public hearing. Individuals requiring special accommodations are requested to contact Katie Rathvon at 240-313-2464 Voice, 240-313-2130 Voice/TDD no later than April 7, 2025. Any person desiring a stenographic transcript shall be responsible for supplying a competent stenographer.

The Board of Appeals reserves the right to vary the order in which the cases are called. Please take note of the Amended Rules of Procedure (Adopted July 5, 2006), Public Hearing, Section 4(d) which states:

Applicants shall have ten (10) minutes in which to present their request and may, upon request to and permission of the Board, receive an additional twenty (20) minutes for their presentation. Following the Applicant’s case in chief, other individuals may receive three (3) minutes to testify, except in the circumstance where an individual is representing a group, in which case said individual shall be given eight (8) minutes to testify.

Those Applicants requesting the additional twenty (20) minutes shall have their case automatically moved to the end of the docket.

For extraordinary cause, the Board may extend any time period set forth herein, or otherwise modify or suspend these Rules, to uphold the spirit of the Ordinance and to do substantial justice.

Tracie Felker, Chairman

### APPLICANT'S STATEMENT

Selena Wilkes (the "Applicant") is the fee simple owner of the Property which is the subject of this appeal. The Property is zoned RS (Residential Suburban) and is the location of Elmwood Farm Bed and Breakfast. The Property is improved with an existing pre-civil war era historic farmhouse, barn and several accessory structures.

The surrounding area is predominantly rural in nature with the exception of the Elmwood Farms residential subdivision to the south and the industrial area along Governor Lane Boulevard directly to the west.

Attached hereto and incorporated herein, as **Exhibits A, B, C, D, E, F, G, H, I, and J** respectively are the Site Exhibit/BZA Exhibit, County Zoning Map, Tax Map of the Property and surrounding properties, SDAT Assessment Records for the Property and the fee simple Deeds.

The Property was previously before the Board in 2018 for a Special Exception, related dimensional and parking surface variance necessary for the Applicant to hold banquet/reception events on the Property in the existing Barn and patio area. The Decision of the Board is attached hereto and incorporated herein as **Exhibit K**.

In 2019 the Applicant sought and was granted a Special Exception to establish an alcohol production facility at the subject property. The Special Exception was granted. The Decision of the Board is attached hereto and incorporated herein as **Exhibit L**.

Recently the Applicant acquired 6.42 acres from Felix's Folly, LLC, the Developer of Elmwood Farms Subdivision. This acquisition has more than doubled the size of the Property.

As plans have moved forward in connection with the construction of the building that will house the Distillery that is necessary to bring the previously permitted alcohol production facility

fruition, it has been determined by MSB Architects and Fox and Associates that southernmost corner of the proposed structure will be 18.5 feet from the rear/south property line of the Property thereby necessitating a variance from the 50' setback required by the *Zoning Ordinance*.

Applicant contends that the following support her position that complying with the setback specified in the Ordinance constitutes practical difficulty and/are undue hardship:

1. The Distillery (aka Stillhouse) replaces and follows the footprint of an outbuilding at standing at the same location until approximately a year ago. That building had to be removed because of its dilapidated condition. The related silo remains standing and is intended to be incorporated into the new Stillhouse structure to help keep the newly constructed building in historical context.
2. Due to challenges presented by the parameters of the existing identified floodplain, the proposed location allows the Stillhouse to avoid major floodplain issues because the location requested will allow the foundation to be raised and constructed to meet Code and to avoid interference with the Flood Plain.
3. Placement in this location will allow the Applicant to utilize the shortest distance for the major hookups related to water, sewer, sprinklering, and 3 Phase electric. With this location, the Applicant will be able to connect from the existing "cap offs" located at the barn where the events occur and the tasing room will be located.
4. The Stillhouse from a functionality standpoint needs to be close to the tasting room. Also, the Stillhouse needs to be easily accessible for loading and unloading purposes associated with the alcohol production process. The requested/proposed location accomplishes and serves both purposes.

5. The Applicant believes that buffering the Stillhouse from the nearby residential subdivision would be beneficial for all interested parties. The property boundary at this location is the forestation area planted by the Developer of Elmwood which allows for an ideal buffer.

**DEED**

**THIS DEED** is made this 22<sup>nd</sup> day of January, 2025, by **FELIX'S FOLLY, LLC**, a Maryland limited liability company ("Grantor") unto **SELENA M. WILKES** ("Grantee").

**WITNESSETH:** That in consideration of the sum of One Hundred Thousand and No/100 DOLLARS (\$100,000.00), Felix's Folly, LLC, a Maryland limited liability company, does hereby grant and convey to Selena M. Wilkes, her personal representatives, heirs and assigns, in fee simple, the following described property, situate, lying and being in Washington County, State of Maryland:

BEING that area designated as "OPEN SPACE 279,675 Sq. Feet 6.42 Acres" as shown and designated on the plats entitled, "FINAL PLAT SECTION 4 & 5A ELMWOOD FARM", recorded among the Land Records of Washington County, Maryland ("Land Records") in Plat Nos. 11385-11391.

BEING a part of the same property which by Deed dated December 22, 2022, and recorded among the Land Records of Washington County, Maryland in Liber 7173, folio 163, was granted and conveyed by E-Wood HOA, Inc., a Maryland non stock corporation, unto the Grantor.

TOGETHER with all buildings and other improvements thereupon, if any, and the rights, alleys, ways, waters, privileges, appurtenances and advantages thereto belonging, or in anywise appertaining.

TO HAVE AND TO HOLD the said described parcel of ground and premises to the Grantee and her personal representatives, heirs and assigns, in fee simple.

AND the Grantor hereby covenants that it will warrant specially the property hereby granted, and that it will execute such further assurances as may be requisite.

WITNESS the name and seal of the undersigned Grantor, by the President of its Authorized Member/Manager, on the day and year first above written.

**OPINION**

Selena Wilkes (hereinafter "Applicant") apply for a special exception to establish an alcohol production facility at the subject property. The subject property is located at 16311 Kendle Road, Williamsport, Maryland; is owned by the Applicant; and is zoned Residential, Suburban (RS). The Board held a public hearing on the matter on December 11, 2019.

**Findings of Fact**

Based upon the testimony given, all information and evidence presented, and upon a study of the specific property involved and the neighborhood in which it is located, the Board makes the following findings of fact:

1. Applicant is the owner of the subject property located at 16311 Kendle Road, Williamsport, Maryland. The subject property is zoned Residential Suburban, RS.
2. The property was the subject of a prior special exception request in Case No. AP2018-006. The Board granted Applicant's request for a special exception to establish a banquet and reception facility at the property, as well as requests for dimensional and parking surface variances. The Board also imposed conditions for hours of operation, capacity and usage, all of which were included in the final site plan approval for the property.

3. Since obtaining the prior special exception approval, Applicant has held thirty-nine (39) events, all of which have been conducted within the conditions imposed and without incident.

4. Applicant is seeking to establish a production operation for alcohol, which would include a craft distillery, small bottling facility and a tasting room.

5. Applicant has an existing two-level barn where the tasting room and retail floor space would exist for the use. The barn already has bathrooms for its use as event and banquet space.

6. Applicant has an existing milking barn that needs repair but would be converted into the manufacturing and bottling space for the use.

7. The property currently has parking capacity for 220 people.

8. Applicant expects approximately 25 to 50 customers for the tasting room space, but parking can accommodate both uses at the same time.

9. Applicant's proposes to be open on Wednesdays and Thursdays from 4:00 p.m. to 8:00 p.m., Fridays and Saturdays from 12:00 p.m. to 10:00 p.m. and Sundays from 12:00 p.m. to 6:00 p.m.

10. Applicant anticipates having a total of 10 to 20 employees.

11. There was no opposition presented at the hearing, although planning staff received correspondence both in support and expressing concerns for the project.

#### **Rationale**

The Board has authority to grant a special exception pursuant to Section 25.2(b) of the Zoning Ordinance for Washington County, Maryland. A special exception is defined as "a grant of a specific use that would not be appropriate generally or without restriction; and shall be based upon a finding that the use conforms to the plan and is compatible

with the existing neighborhood." Article 28A. In the instant case, the Board is called upon to consider a special exception request to establish an alcohol production facility at an already existing banquet and event facility.

The testimony before the Board indicated that the proposed use and the existing use are a natural fit to be commingled at the property. The property already has the ability to host events and serve guests, and more capacity than necessary. Implementing a tasting room and locally produced alcohol only enhances the draw for tourism, bookings and events. Aside from the customers visiting for tours or the tasting room during the week, there will be very little observable change to the property. The proposed use will further utilize the existing barn and give purpose to the decaying milking barn at the property. The production process and related retail uses will not produce any odors, gas, noise, light or other adverse effects that would impact the surrounding area. The proposed use is great for economic development and tourism enhancement in Washington County. The Board finds there are no adverse impacts of this use on the surrounding area and that it is consistent with, if not a continuation of the spirit and vision of the Zoning Ordinance.

Accordingly, the request for a special exception to establish an alcohol production facility at the subject property is hereby GRANTED, by a vote of 3-1. The application is granted upon the condition that the proposed use be consistent with the testimony and evidence presented herein.

BOARD OF APPEALS

By: Michael Zampelli, Co-Chair

Date Issued: January 3, 2020

**BEFORE THE BOARD OF APPEALS  
FOR WASHINGTON COUNTY, MARYLAND**

**Selena M. Wilkes**  
**Applicant**

**Appeal No. AP2018-006**

**OPINION**

This appeal is a request for a special exception to establish a banquet/reception facility, and for variances from the minimum 100' right side yard setback to 88', from the requirement to provide a durable, dustless surface for parking, and from the required 233 parking spaces to 110 spaces for said banquet/reception facility. The subject property is located at 16311 Kendle Road, Williamsport, Maryland; is owned by the Applicant; and is zoned Residential Suburban. The Board held a public hearing on the matter on February 21, 2018.

**Findings of Fact**

Based upon the testimony given, all information and evidence presented, and upon a study of the specific property involved and the neighborhood in which it is located, the Board makes the following findings of fact:

1. The Applicant seeks a special exception, with associated variance relief, to establish a banquet/reception facility on the subject property.
2. The property is an irregularly shaped parcel that is 6.35 acres in area.
3. The property was long used as a farm.
4. A portion of the farm was sold and has been and is being developed into the Elmwood Farm community.
5. The subject parcel was the original farmstead and is improved with a farmhouse dwelling and a barn.
6. The farmhouse is the Applicant's residence and is being used as the Elmwood Farm bed and breakfast facility.
7. The barn, and its patio (the former barnyard area), is proposed to be the

banquet/reception facility site.

8. The bank barn is 3,140 ft.<sup>2</sup> in area.
9. Receptions, banquets, and other events are proposed to be held in the barn.
10. Event capacity is 220 attendees.
11. Offsite caterers will provide food; no food for events will be prepared onsite.
12. The Applicant or her sister is present at each event and provides oversight.
13. Events typically occur on weekends, with there being approximately one event per weekend for four to five months of the year.
14. Many of these events are weddings, and wedding season is in the Spring and Fall.
15. Events must end, contractually, by 10:30 P.M.
16. Bands are always located in the back of the barn to minimize sound dispersion to surrounding properties.
17. Speakers serving the patio area are always directed towards the barn to minimize sound dispersion to surrounding properties.
18. Live Sound Co, LLC, and Jeremiah Leiter, a sound and audio professional, performed an acoustic analysis of the property. The test simulated a "typical outdoor event with amplified music" and took measurements of ambient noise at seven different locations in the neighborhood.
19. The study concluded that "amplified music generated at a constant level of 91.4 dBa, from the determined outdoor source location [where the speakers are normally placed during an event], cannot be measured above the ambient noise level outside of Elmwood's property at Point 5 [Ripple Drive], 6 [John Martin Drive near the entrance], and 7 [John Martin Drive, at the end closest to Elmwood Farm]."
20. Live Sound Co determined that the spillover of noise, if any, from Elmwood was no greater at the identified measured locations than was the ambient noise at those locations.
21. Leiter recommended that "Elmwood Farm purchases an SPL meter to ensure that

the level at the farm does not exceed a peak of 103 dBa at a distance of 6ft from the source." [sic]

22. Kendle Road has sufficient capacity, and is of adequate condition, to handle traffic frequenting the facility.

23. The use does not create excess dust or other environmental detriments.

24. Given the facility's capacity, the need for parking does not exceed 110 spaces.

25. Handicapped parking spaces will be paved.

26. Approximately one-half of the proposed parking spaces are on gravel or on a concrete pad; the remainder will be on a grassy area.

27. Neighboring property owners—including the Applicant's closest neighbor--cannot hear noise from events when they are inside their dwellings.

28. There is a demand for this type of facility in the area and it promotes economic development.

29. The banquet/reception use is an appropriate adaptive reuse of the agricultural property.

30. Most neighboring property owners do not identify traffic or noise as issues negative generated by this use.

31. This use is needed, promotes tourism and generates tax revenue, and is an asset to the community.

32. The Applicant is responsive to the concerns raised by residents in the neighborhood.

33. Greg Baisey, testifying in opposition to the appeal, noted that he was the first to buy in the Elmwood Farm development. He lives 400 yards from the subject property.

34. He expressed concerns about diminished property values, the incompatibility of the proposed use with surrounding residential properties, and the noise emanating from the facility.

35. He testified that the banquet/reception use was inappropriate to, and incompatible

with, the surrounding residential neighborhood.

36. Notwithstanding Mr. Baisey's assertions, the testimony and evidence clearly showed that the proposed use is compatible with the existing neighborhood given the lack of adverse effects affecting neighboring properties.

37. In particular, there was no probative evidence to show that the use generated inordinate adverse effects including noise, traffic, odors, lighting, or other adverse effects.

38. The Comprehensive Plan does not address banquet/reception facilities specifically, but it does encourage compatibility amongst uses and promotes business development within the Urban Growth Area, in which this parcel is located.

39. As we have found that the use is compatible with the existing neighborhood, we also find that the use conforms to the Plan.

### **Rationale**

#### ***The Special Exception***

The Board has authority to grant a special exception pursuant to Section 25.2(b) of the Zoning Ordinance for Washington County, Maryland. A special exception is defined as "a grant of a specific use that would not be appropriate generally or without restriction; and shall be based upon a finding that the use conforms to the plan and is compatible with the existing neighborhood." Article 28A.

The proposed use is a permitted special exception use in this zone, and the testimony clearly established that the banquet/reception use is a favored adaptive reuse of the farmstead enjoying broad community support. We acknowledge that this commercial use is found amongst a residential neighborhood and that some object to its presence, citing concerns about noise and property values. No probative evidence was presented that the use negatively affected property values, and the weight of the evidence clearly showed that the use did not negatively affect surrounding homeowners' use of their properties.

The property is of adequate size to accommodate the use and buffer it from surrounding residences, tempering the adverse effects inherent to a banquet/reception facility, including noise, odors, or lighting. Moreover, the evidence established that, so long as speakers were properly directed and controlled, the noise generated by the use cannot be measured above the ambient noise level found in the neighborhood at the measured points. This is important, as it does much to reduce the discord amongst differing uses that might otherwise be expected from such a facility.

Furthermore, the evidence established that the use was not generative of traffic problems on Kendle Road or unusual amounts of spillover lighting. Most neighbors testified that the use did not disturb their quiet enjoyment of their homes or otherwise negatively impact their lifestyle. Instead, they spoke of the value that the use provided to the neighborhood and their support for its continued presence, and urged that we grant the special exception. The evidence showed that the use conforms to the Plan and is compatible with the existing neighborhood. It further showed that the establishment of this special exception use at this site will have no greater "adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone." *Schultz v. Pritts*, 291 Md. 1, 15 (1981). Therefore, the special exception is GRANTED WITH CONDITIONS as set forth below by a vote of 4-0.

#### *Conditions upon Special Exception Use*

1. Patrons shall not exceed 220 persons at any event.
2. Events must end no later than 10:30 P.M.
3. Speakers must face towards the barn and not exceed a measured peak volume of 103 dBa at a distance of six feet from the source.

#### *The Variances*

This Board has authority to grant variances upon a showing of practical difficulty or undue hardship. §§ 25.2(c) and 25.56. <sup>1</sup> "Practical Difficulty" may be found by the Board when: (1) strict compliance would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome; and (2) denying the variance would do substantial injustice to the applicant and a lesser relaxation than that applied for would not give substantial relief; and (3) granting the variance would observe the spirit of the Ordinance and secure public safety and welfare. § 25.56(A).

This property is unique due to its size and shape. Surrounding parcels are more regularly shaped and are generally of smaller size, and improved with dwellings. This parcel is irregularly shaped and is 6.35 acres in area. Its lot lines are not parallel or at right angles, but rather form an irregular polygon. Furthermore, the historic nature of the

---

<sup>1</sup> "When the terms unnecessary hardship (or one of its synonyms) and practical difficulties are framed in the disjunctive ("or"), Maryland courts generally have applied the more restrictive hardship standard to use variances, while applying the less restrictive practical difficulties standard to area variances because use variances are viewed as more drastic departures from zoning requirements." *Belvoir Farms Homeowners Ass'n, Inc. v. North*, 355 Md. 259, 276 n.10 (1999) (citations omitted).

farmstead, which far predates adoption of zoning principles, is unusual in the neighborhood. Therefore, we consider the property eligible for variance relief.

The Applicant seeks variance relief from the mandated property line, from the requirement to provide a stable, dustless parking area, and from the proscribed number of parking spaces. The property line encroachment is caused by the interplay between the ride side property line and the historic location of the barn. Because the barn is not parallel with the right side yard property line, an encroachment is created. For these same reasons, a lesser variance is not feasible. There was no showing that the encroachment was offensive to any neighboring property owner, or that strict compliance would confer any additional benefit to a neighboring property owner.

The Ordinance requires a durable, dustless parking area for this use. The Applicant asks that the property be allowed to remain in its current condition, noting that handicapped spaces will be paved. Preservation of the property in its current condition maintains the rural character of the farmstead and is far more aesthetically pleasing than would be an impervious surface. A lesser relaxation is impracticable for this reason. The appropriateness of variance relief is further advanced by the fact that events are seasonal and generally occur only once per weekend. Thus, the natural surface will have time to recover from use, negating the risk that use will create a denuded area. Furthermore, the capacity limitation of the facility, and past usage, have shown that 110 spaces are adequate to serve the use. The number required by the Ordinance is derived from inclusion of the barnyard area, rather than the barn, which is the limiting factor of the site. For all the foregoing reasons, we conclude that the grant of the requested variance relief observes the spirit of the Ordinance and secures the public safety and welfare.

Accordingly, these requests for variances are hereby GRANTED by a vote of 4-0.

**BEFORE THE BOARD OF APPEALS  
FOR WASHINGTON COUNTY, MARYLAND**

**SELENA WILKES**

\* **Appeal No.: AP2025-005**

**Appellant**

\*

\*

\* \* \* \* \*

**OPINION**

Selena Wilkes, (hereinafter “Appellant”) requests a variance to reduce the required rear yard setback from 50 feet to 18.5 feet for a proposed distillery/alcohol production facility at the subject property. The subject property is located at 16311 Kendle Road, Williamsport, Maryland 21795 and is zoned Residential Suburban. The Board held a public hearing in this matter on April 16, 2025.

This appeal was heard pursuant to Article 25 of the Zoning Ordinance for Washington County and upon proper notice to the parties and general public as required.

**Findings of Fact**

Based upon the testimony given, all information and evidence presented, and upon a study of the specific property involved and the neighborhood in which it is located, the Board makes the following findings of fact:

1. Appellant is the owner of the subject property located at 16311 Kendle Road, Williamsport, Maryland. The subject property is zoned Residential Suburban.
2. The subject property is part of a historic farm that has existed since 1853.
3. The subject property was the subject of a special exception request in 2018 in Case No. AP2018-006. The Board granted the request for a special exception to establish a banquet/reception facility, subject to enumerated conditions.

4. The property was the subject of another special exception request in 2019 in Case No. AP2019-025. The Board granted the request for a special exception to establish an alcohol production facility.

5. The subject property consists of 6.35 acres of farmland, improved by a barn and other farm accessory buildings. The lot lines are not parallel or at right angles and instead forms an irregular shape. One of the original farm buildings was razed due to its dilapidated condition, leaving an already prepared area for construction.

6. The subject property is located in close proximity to Elmwood Farms development, has an existing tree buffer and is affected by the 100 Year Floodplain.

7. Appellant proposes to construct a distillery to operate in conjunction with the banquet/reception facility.

8. The distillery building will be located in the area where the original building was located but recently torn down due to disrepair. It will use the same basic footprint as the original building.

9. The proposed location does not experience flooding like other areas of the property and was chosen to minimize encroachment into the floodplain.

10. There was no opposition presented to this appeal.

### **Rationale**

The Board has authority to grant a variance upon a showing of practical difficulty or undue hardship as set forth in Section 25.2 and 25.56 of the Ordinance.<sup>1</sup> "Practical Difficulty" may be found by the Board when: (1) strict compliance would unreasonably prevent the use of the property for a permitted purpose or render conformance

---

<sup>1</sup> "When the terms unnecessary hardship (or one of its synonyms) and practical difficulty are framed in the disjunctive ("or"), Maryland courts generally have applied the more restrictive hardship standard to use variances, while applying the less restrictive practical difficulty standard to area variances because use variances are viewed as more drastic departures from zoning requirements." *Belvoir Farms Homeowners Ass'n, Inc. v North*, 355 Md. 259, 276 n. 10 (1999) (citations omitted)

unnecessarily burdensome; and (2) denying the variance would do substantial injustice to the applicant and a lesser relaxation than that applied for would not give substantial relief; and (3) granting the variance would observe the spirit of the Ordinance and secure public safety and welfare. Section 25.56(A).

Practical difficulty and undue hardship are typically the result of a property being unique. “‘Uniqueness’ of a property for zoning purposes requires that the subject property have an inherent characteristic not shared by other properties in the area, i.e., its shape, topography, subsurface condition, environmental factors, historical significance, access or non-access to navigable waters, practical restrictions imposed by abutting properties (such as obstructions) or other similar restrictions.” *North v St. Mary’s Cnty.*, 99 Md.App. 502, 514 (1994).

Pursuant to Section 8.5(a) of the Zoning Ordinance, the rear yard setback requirement for the proposed use in the Residential Suburban zoning district is 50 feet. Appellant requests that the rear yard setback be reduced to 18.5 feet to allow for construction of the distillery building in the same footprint as a pre-existing farm building was situated before being removed.

As the Board has previously noted, this property is unique due to its size and shape. In contrast to the smaller, more uniformly shaped parcels in the surrounding area, the subject property is an irregular shaped polygon. The layout and design are limited by the location of the existing buildings and the existence of the floodplain. Appellant testified that the proposed location for the distillery will allow for more efficient traffic flow for deliveries and allows direct connection with existing utilities services to the property. The proposed construction will tie in naturally with the banquet/reception use and capitalize on the historic and agricultural nature of the area. Based on the testimony and evidence, the Board finds that practical difficulty exists as a result of the shape, size and juxtaposition of the property, and therefore necessitates a relaxation of the rear

setback requirement. Moreover, the relief requested is the minimum necessary and is consistent with the spirit and intent of the Ordinance.

Accordingly, the request for a variance to reduce the required rear yard setback from 50 feet to 18.5 feet for a proposed distillery/alcohol production facility at the subject property is GRANTED by a vote of 5 to 0. The variance is granted subject to the standard condition that the use is consistent with the testimony and evidence presented during the hearing before the Board.
