Director's Comments

Washington County's Charitable Gaming Program continues to be a very important and well-regulated source of revenue for the local economy and non-profit organizations operating in Washington County.

In fiscal year 2014, charitable gaming provided 82 charitable organizations and the Washington County Volunteer Fire and Rescue Association with \$1,955,483.38 in funding. Since the inception of regulated tip jar gaming in 1995 the Washington County Gaming Commission has distributed over 52 million dollars to charitable organizations and fire and rescue companies operating within Washington County.

Washington County's charitable gaming program allows these charitable organizations to feed the hungry, house the homeless, protect victims of domestic abuse, protect victims of child abuse and prosecute the offenders, provide medical care to the uninsured and under insured, fund youth development programs, supplement public safety efforts, support the arts and provide recreational activities for our youth.

The services provided by these organizations with charitable gaming monies is done at absolutely no cost to the taxpayer. All funding provided and the administrative costs associated with the program are paid by those choosing to participate in the program.

With the direction and support of our state and local elected officials we are able to effectively manage the program and ensure accountability of our gaming operators and funding recipients. As a result of this clear direction, Washington County's charitable gaming program is viewed as a "Model Program" throughout the State of Maryland. This is a distinction we will strive to maintain.
