Describe how building will be used. Be specific in describing any special processes.

ATTENTION: Agricultural buildings exempt from a building permit under the 2015 Washington County Building Code will require issuance of a plumbing, electrical and/or mechanical permit for installation of electrical systems, mechanical systems and water and wastewater systems. All requirements of the 2015 IECC, the 2015 IMC, the 2015 IPC and the 2014 NEC will apply. Where plumbing, electrical or HVAC system installation is part of a planned agriculture building construction, the applicant may be required to have a licensed contractor apply for trade permits prior to issuance of an "Agricultural Structure" certification.

Agricultural Building Exempt From a Building Permit: A structure designed and constructed to house farm implements, hay, grain, poultry, livestock or other horticultural products. This structure shall not be a place of human habitation or a place of employment where agricultural products are processed, treated or packaged, nor shall it be used by the public. However, any building or structure intended for use as a residential dwelling unit, in whole or in part, shall not be exempt from the building permit requirement.

I hereby certify that I have accurately completed and understand the information above and will construct and use the agricultural building in compliance with all local, state and federal laws.
