PUR-1470
Intervention and Case Management for Youth of Incarcerated
Parents in Washington County, Maryland

After accessing the needs of the community and review of current data about school readiness, the Washington County Local Management Board has concluded that programming is necessary to impact this issue particularly among those youth whose parent(s) have been or are currently incarcerated. Research indicates that this population has increased risk of poor school performance. The Board wishes to fund a program that will coordinate with local law enforcement to provide school readiness/success resources along with case management to this population. The program will specifically target youth ages 0-18 (along with their caregivers) with at least one parent currently incarcerated at the Washington County Detention Center (WCDC) or the Washington County Day Reporting Center (WCDRC). The selected organization will work closely with both agencies to provide services including but not limited to family assessment, case management and referral to services. Parent/caregiver classes will be provided to include school readiness and parenting skills curriculum. The overall goal of the program is to provide services to youth of incarcerated parents and their caregivers, recognizing the adverse impact parental incarceration may have on the family.

1. Staffing – Case Management Services may be provided by one or more Case Managers either on a full or part-time basis as long as the services meet the minimum requirement of 390 hours per quarter. A qualified applicant preferably has a bachelor’s degree or higher in a mental health or human services field with at least two years’ experience working with youth and families. Applicants with bachelor’s degree in other fields or with Associates Degrees in mental health or human services field with at least four years’ work experience working with youth and families will also be considered. *Please note staff or employee leave time including but not limited to vacation, personal and sick leave will not be reimbursable under this project per GOCPYV guidelines and policies.*
2. Collaborative efforts – Services must include strong agency and community collaboration and involvement. It will be required that the Applicant create and/or maintain a collaborative relationship with local law enforcement and service providers.
3. Coordination with local law enforcement – A Memorandum of Understanding between the Applicant and WCDC and WCDRC is required to be executed prior to the start of services. The service provider shall obtain all necessary malpractice and liability insurances in the amounts required by WCDC and WCDRC.
4. Referrals to Service – The Program will be accessible by all targeted youth and families (see POPULATION SERVED), allowing referrals from all law

enforcement agencies (including WCDC and WCDRC), school systems, service providers, and citizens.

5. Location of Services – Location of services in close proximity to the WCDC and WCDRC is preferred but not required.
6. Outreach – The success of this program will be dependent upon the target population being referred to it, therefore, outreach is an important component. The Applicant should ensure the target population and service providers are aware of the program.
7. Case Management – The Case Manager(s) will provide case management services, including (but not limited to) family assessment, referral services, family centered services, and follow up support as necessary to the youth and families served.
8. Training and Education – The Intervention and Case Management for Youth of Incarcerated Parents program will focus on two educational components: (1) preparing youth under 5 for school readiness and (2) ensuring school age youth are successful in school. To achieve these goals the program will offer training workshops/educational learning experiences in these subject matters at least quarterly.
9. Population Data Collection – In addition to program data, the applicant will be responsible for collecting local data/statistics on the target population of youth with incarcerated parents. This data will be used to determine the needs of the local population.
10. Program Data collection – The Applicant must collect and report indicator data and program outcome information as required by the Evaluation Contract executed with the Office of Community Grant Management. Data collection will be required through the duration of the program. The following data outcome measures are the minimum measures expected of the selected Applicant.
 - a. Number of hours of services provided per quarter
 - b. Number of school aged children served by program
 - c. Number of pre-school age children served by program

These measures may be revised at the discretion of the OGM and GOCPYV.
