**ITEM NO. 1:** *Inquiry:* Are you able to share who currently is the vendor for the service?

*Response:* The prior vendor was Serenity Treatment Center. Serenity experienced a significant clinical staff storage due to COVID and was not able to continue to provide onsite services. Currently, the Program Director which is a licensed clinician has been providing SUFD treatment services.

**ITEM NO. 2:** *Inquiry:* What have been the volumes of clients served in the program for the past 2 years?

*Response:* Prior to COVID March 2020, the program averaged fifty (50) participants in various stages of the program. During COVID the program maintained a daily census of thirty-six (36) participants. Now that the courts are opening the program is receiving a referral a week.

**ITEM NO. 3:** *Inquiry:* How has COVID-19 impacted service delivery at the center? Have services been provided remotely?

*Response:* DRC remained opened during COVID. The scheduled was modified due to a loss of community services providers from April 2020 to June 2020. Participants received face to face treatment six (6) days a week, provided by the Sheriff's Office employees. No virtual sessions were permitted since most of participants were currently under the supervision of the Detention Center. During the stay-at-home mandate, participants were placed on home confinement and monitored through a GPS tracking device, with permission to report to work and DRC only. To date, all community services providers have returned to the program and are providing fact to face services.
