Hafer's Gunsmithing, Inc.

We have concerns about delivery of items requested in the specified timeline due to manufacturer delays in distribution. We have substituted the following to make this process less of a problem.

1. Spur mount. Replace with WARNE 7818-20MOA.

2. MLOCK ARCA RAIL was not specified. We have chosen a MDT 7" mil-spec aluminum ARCA rail to meet this request.

3. Atlas bipod B10-V8 does not come standard with ARCA attachment. However ATLAS B10-v8 NC does. This is the one in the quote.
